A premier pioneer in whale watching, Randy's Fishing and Whale Watching Trips has the distinct privilege of offering year-round, fully-narrated cruises for whale and mammal watching that place the viewer in close proximity to some of the most spectacular marine life on earth as they migrate and feed throughout the Bay. Each winter, Gray Whales migrate south from Alaska to their calving grounds off Baja California. In the spring, they return to their feeding grounds off Alaska. During Summer and Fall, Humpback and Blue Whales arrive in the area to feast upon the rich nutrients of the Monterey Bay. We have a 95% success rate in the sightings of whales and other marine mammals.
